

FIXING OF PRICES OF FARM PRODUCTS BY GRANGE IS NEAR?

Master of National Organization Says It is Coming.

By Associated Press Leased Wire Boston, Nov. 10.—The establishment of "nation-wide selling organizations which shall fix the price of farm products," if the farmer does not receive "the same pay for the same hour's work as others receive," was predicted by Sherman J. Lowell, of Fredonia, N. Y., master of the National Grange of the Patrons of Husbandry, in opening the annual convention of the grange.

"We are willing to have a fair understanding of values, the farmers receiving the same pay for the same hours' work that others receive, no more, no less, but we feel that this is the last call," he said; "if no attention is paid to this by bankers, manufacturers, railroads and labor organizations and if the government continues to use its great power to import raw materials free of duty to reduce costs, then the grange will be the first to help organize nation-wide selling organizations which shall fix the price of farm products."

Driven To It.

"There is no threat in this; we will have been driven to it in self-defense to preserve agriculture."

Mr. Lowell rejoiced that labor has been able to secure a much higher rate of wage, but added:

"We little expected that they would turn and demand cheaper food from us without first ascertaining the cost of production, and thereby deciding whether we were taking too large a margin of profit."

The national master declared the great changes that have taken place since the beginning of the war have been to the disadvantage of agriculture and many laws and rulings of the national government have proven an injury to farmers.

Fewer Farmers.

Mr. Lowell showed the recent census showed a net decrease of 100,000 farms in seven states—New York, Pennsylvania, Ohio, Illinois, Indiana, Michigan and West Virginia—and charged that the attitude of men in legislative halls and departments of government was responsible for this condition.

Concerning taxation, he said:

"There is but one equitable form of taxation and that is when every form of wealth pays its just proportion of taxes. There is no tax more just than an income tax for it is never a charge against any one who has not the means to pay."

He spoke against the single tax and the idea of placing a government land tax of one per cent on land in place of taxing large incomes. Both would be disastrous to agriculture, he said.

"Another equally erroneous idea," he continued, "is the one of a heavy tax on all unimproved land holdings, for if this was done and they were forced on the market by reason of such a tax (which is the intent) it would cause the depreciation of farm lands 50 per cent, from the fact there is more improved land than men to work it now."

Half Dollars to Cost Hundred Cents

Pilgrim half dollars issued by the federal government in commemoration of the Pilgrim tercentenary celebration have not yet made their appearance in Dixon, although the announcement has been made that the coins are being sent from the U. S. mints to the banks throughout the country.

The coin is on the order of the Columbia half dollar and is the size of the ordinary 50 cent piece. While worth only 50 cents it will be sold by the banks for \$1, the additional 50 cents going toward a fund to defray the expenses of coining, and what is left goes to a fund for a memorial at Plymouth to commemorate the landing of the Pilgrims.

On the face of the coin is stamped the head and shoulders of a Pilgrim with the usual inscription "United States of America," "In God We Trust" and "Pilgrim Half Dollar." On the reverse side is stamped a representation of the Mayflower and the words, "Pilgrim Tercentenary 1620-1920."

Unusual Accident Today—A Runaway

A team belonging to Howard Emmet, who resides south of town, became frightened at the morning about 10 o'clock and made a wild dash west on Second street. Near the corner of Peoria avenue the team ran up onto the sidewalk and across the lawn at the south side of the Methodist church. The rear of the wagon struck a telephone post, snapping the reach, the team proceeding westward with the front wheels. A few feet farther west, they turned again onto Second street, one of the wheels striking a tree and knocking both horses down. One of the animals was slightly scratched and bruised and the wagon was badly wrecked, but no serious damage was done.

ULTIMATUM FOR JUGO-SLAVIA IN ADRIATIC CASE

Italy Outlines Minimum Claims in Dispute.

Rapallo, Italy, Nov. 9.—(By Associated Press.)—In what may be considered an ultimatum sent to the Jugo-Slav delegation here regarding pending negotiations between Italy and Jugo-Slavia over the Adriatic question, Count Storza, Italian foreign minister, as head of the Italian delegation, laid down Italy's definite minimum claims. These the document stated, were:

"The Istrian frontier, including the Julian Alps, the mountain and the railway from Fiume to St. Peter Junction;

"Territorial contiguity between Fiume and Italy;

"Fiume to be a state entirely independent, without any control by the League of Nations;

"Annexation of the island of Lus-sin-Piccolo and Cherso to Italy;

"The annexation of Zara to Italy;

"The annexation of several of the Jugo-Slav islands to Italy for strategic reasons;

"Guarantees for the protection of Italian minorities in Dalmatia remaining under Serbian rule;

"Demilitarization of some of the Dalmatian positions which will be allocated to Serbia."

It is stated the Italian minimum terms were presented on the request of the Jugo-Slav delegation. The Jugo-Slavs were said to consider the Italian terms excessive, but they reserved their reply until the claims had been further examined.

SHIPPING BOARD IS CHARGED WITH WASTE

Investigators' Reports Also Charge Graft in Many Cases.

By Associated Press Leased Wire Washington, Nov. 10.—Charges that the actions of the shipping board have resulted in an enormous waste of government funds are contained in a report submitted to the House committee on shipping board operations by two former employees of the board, A. M. Fisher and J. F. Richardson, who for more than a year have conducted an investigation for the committee.

The report released for publication today by the committee of which Representative Walsh, Republican, Massachusetts, is chairman, states that the investigators found evidence of graft in the purchase of supplies for repairing government owned ships, of corruption on the part of officials and employees of the shipping board emergency fleet corporation, and of the use of political and other influence in the negotiating of contracts for construction and allocation of vessels.

It was declared that improperly drawn contracts had cost the government a large sum, that some divisions of the board had failed to co-operate efficiently and that others had failed completely to function properly. The report also charged that payrolls had been padded by some of the firms which repaired government owned vessels and that there had been a heavy loss to the government as a result of wholesale thefts of supplies and equipment from ships.

EXPECT AT LEAST 30 INDICTMENTS; BOOZE RING NEARLY BROKEN

Police Officials and "Higher Ups" May Be Indicted.

By Associated Press Leased Wire Chicago, Nov. 10.—Federal indictments for at least 30 policemen police officials, whisky runners, saloonkeepers, "higher ups" and minor violators of the prohibition laws were forecast today with the beginning of grand jury perusal of evidence concerning the "Mike De Pike" Heitler \$175,000 whisky theft.

Federal warrants were issued for the arrest of Heitler, his partner, Robert Perlman and Mannie Greenberg on charges of possession and selling liquor and procuring whisky on forged government permits. Heitler's connection with the \$175,000 liquor theft brought forward an alleged confession implicating Chicago police.

A fourth member of the gang, John L. Tobin, saloonkeeper, was arrested yesterday and released today on \$5,000 bonds.

Jones, partner in a detective agency, and Benjamin Stern, for many years a bailiff in Federal Judge Landis' court, and eight other co-defendants named in indictments returned yesterday will face trial for conspiracy to possession and control forged prescriptions; conspiracy to sell and distribute forged prescriptions to retail druggists, and illegally selling forged prescriptions.

Heitler is said to have disclosed details of bribery of federal and city officials, implicating a number of Chicago and New York men and two Louisville distillers, with plans of politicians and bootleggers to organize a \$10,000,000 company to sell whiskey in Chicago and New York.

WISH REALIZED

By Associated Press Leased Wire Chicago, Nov. 10.—Mrs. Clarence W. Russell, widow of the former University of Chicago football star, who disappeared from her home in Evanston Monday, realized her greatest wish—that her son, Bryan, would always remember her as a beautiful woman, unchanged by illness and despondency. Her body was taken from Lake Michigan this morning after a search by relatives.

Two years ago her husband died, followed by the death of her mother last summer. According to relatives, Mrs. Russell grieved continually, and worn by illness, went to live with a sister in Hinsdale. She placed her son in the home of her brother, John C. Singleton, of Evanston.

The boy is eight years old. Mrs. Russell went to watch him at school for the last time Monday afternoon. Then, in a driving rain, she walked to the lake and disappeared.

SENATE BATHS TO BE OPENED AFTER 8 YEARS

But Senators Will Pay Cost of Operation and Upkeep.

Washington, Nov. 10.—(By Associated Press.)—The Greco-Roman baths of the United States Senate, installed nearly eight years ago but never put into service are now being cleared of the cob webs and stains of time, and will be in shape to offer their luxuries of steam, plunge, shower and electric heat to the members of the senate when it assembles.

Charges of extravagance were aimed at the baths in congressional debate when the power of administration last swung from Republican to Democratic and as a result the baths, installed in the then new Senate office building, were shorn of their expensive equipment, bereft of their attendants and left to gloom.

Senators Will Pay

Now, however, the baths are coming back, but under a new plan. Members of the senate themselves will pay the cost of the operating expenses. The baths will be somewhat less gorgeous than the original plan anticipated.

Senators will be able to steam themselves out in a series of marble hot rooms, resuscitate themselves on the drying room cots, invigorate under one of the several types of needle and drench showers and float in the swimming size plunge. They also can try massage, the electric cabinet or the prickling shocks from the static machines.

Installation of the baths caused many to feel that the waste of letting the equipment lie dormant is as great as any expense that can be encountered in putting it into service.

Tomorrow Mr. Harding is to speak at Brownsville at an Armistice Day celebration and he may go into the city early and try out the golf links before delivering his address. So far he has not prepared any manuscript for the occasion, but expects to dictate at least a part of his speech tonight.

PLANNED TO ATTEMPT JAIL DELIVERY 1:30 TUESDAY AFTERNOON

Sheriff Gets Additional Information on Plan of Prisoners.

At 1:30 yesterday afternoon, the prisoners now confined and under guard in the Lee county jail would have been free, escaping in about the same manner as several days ago, had their preparations remained undiscovered. In the historic delivery the prisoners made a hole in the ceiling, escaping by crawling out on the roof and sliding down the eaves spouts.

The sheriff learned late yesterday that the occupants of the cell room had planned 1:30 as the hour to make their break for liberty. Knowing that the cells would be unguarded at this hour, due to the absence of the turnkey and the sheriff being in his office at the court house, they anticipated with little or probably no opposition in carrying out their carefully laid plans. Their heaviest task, that of prying away the stone and masonry, accomplished remained was to pry the wooden sheeting and effect a hole in the roof.

This would have left an opening of sufficient size to permit ample room for the largest man in the cell room to crawl through with ease, coming out on the roof over the women's apartment. They could have then slid down the eaves spouts to the ground, a distance of probably 12 feet and would have been at liberty to make their escape in any direction.

John Gaffney, a former member of the police department, and one who has had several years of experience, was secured last evening by the sheriff to act as turnkey and guard over the prisoners. No investigation has been conducted to ascertain which one of the prisoners headed the scheme to break jail.

FIRST STEEL IS PLACED ON NEW CENTRAL BRIDGE

First Pier and North Abutment Connected with Iron.

Several carloads of steel for the new Illinois Central bridge have arrived in Dixon and are being unloaded on the north side of the river, from the Borden plant switch track to the siding east of the north side depot.

The first of the steel to be put into place was swung into position yesterday at the north side of this new structure. Two big sections, weighing 20 tons each, were placed, connecting up the first north side pier with the abutment pier. Superintendent Armstrong is in Chicago today at the head offices of the Bakes & Rogers company, where arrangements for placing the steel are being discussed.

The construction company has two more piers to construct before this part of the work will have been finished. Ten piers are completed and in readiness for the placing of the steel on the north side of the river, one of the two uncompleted being in the middle of the stream and the other to the south. A great deal of the false work used in the construction of the piers has been removed and several carloads of machinery, consisting of hoisting engines, hydraulic pumps, steam and water lines have been removed and shipped back to Chicago.

A few piles remain to be driven in the two uncompleted piers; then this part of the machinery will be torn down and shipped.

With proper weather conditions, the concrete work should be completed in two weeks when all of the piers will be ready for the steel structural workers.

STORES REMAIN OPEN THURSDAY AFTERNOON

Merchants Decide Time Too Short to Plan Closing.

The new Merchants committee of the Chamber of Commerce held their first meeting yesterday afternoon. The American Legion presented a request that the merchants close their stores during the football game Thursday afternoon. It having been the experience of the merchants that closing the stores without a considerable advance notice caused great inconvenience to their country customers it was not thought wise that this committee should recommend to the merchants that they close on this occasion. The committee, however, was very anxious that the Legion boys should make a success of their Armistice day game and therefore not only authorized the solicitation of tickets, but recommended that the merchants of this city buy tickets. Business will be slowed up that afternoon and employees wishing to go to the game should be granted time off.

The general plan to be followed in the matter of solicitation for advertising, charity, tickets and the closing of stores was thoroughly considered. A motion that the stores close all day Thanksgiving day, Christmas and New Years day was carried unanimously. In order to avoid the necessity of each merchant investigating the worthiness of every solicitor it was decided that the promoters of these projects should first submit their proposition to this committee. This can always be done by calling on the secretary of the Chamber of Commerce.

Galena Ave. Bridge Repairs Near End

The carpenters on the Galena avenue bridge this morning were tearing up the last of the flooring on the south span. Others were following up, laying the crossed floor up to the last span at the south end of the bridge, which is all that remains to be repaired before the entire floor can be thrown open for traffic. With reasonable weather conditions, the carpenters expect to have the floor of the bridge completed within another week. They have been making exceptionally rapid progress on the east side of the bridge.

With the exception of the east side of the south span, practically the rest of the bridge will be open for traffic by the end of the week. The entire force of workmen will then rush the last stretch to completion as rapidly as possible and this should be accomplished by the close of next week. The only work then remaining will be the erection of the guard rail on both sides of the bridge.

Council Pays Shons Bill on Bridge Work

The city council at its regular meeting last evening, paid the bill of Contractor W. H. Shons of Freeport, which amounted to \$1,250, for work on the Galena avenue bridge. Clarence Naegren, former member of the police force, was granted a license to dispense soft drinks at his place of business, 625 Depot avenue. The application of Hueter & Hueter to erect an electric sign at their place of business, 115 Hennepin avenue, was referred to the commissioner of public health and safety.

Mr. and Mrs. Henry Briscoe will spend Thursday in Chicago.

Today's Market Report

(By Associated Press Leased Wire.)

Wheat and Corn Stronger Today

By Associated Press Leased Wire

Chicago, Nov. 10.—Announcement that no general curtailment of rural bank loans in Kansas was contemplated had a bullish influence today on the wheat market. Upturns in foreign exchange tended also to lift prices, and it was said that for the first time in months there had been acceptance of wheat by the British government. Buying was general, with strong houses in the lead. Opening prices, which varied from the same as yesterday's finish to 1/2¢ higher, Dec. 1.78 1/2 to 1.79 1/2, and March 1.54 1/2 to 1.55 1/2, were followed by material gains all around.

Corn strengthened with wheat. After opening unchanged to 1/2¢ off, Dec. 78c to 79c, the market scored a general upturn. Oats were governed by the action of other grain, starting at 1/2¢ decline to 1/2¢ advance, May 55c to 55 1/2¢, and then climbing somewhat.

Provisions reflected firmness of grain and hogs. It was said that hedges here on nearly 2,500,000 bushels of Canadian wheat were lifted by export interests, and that there was considerable export business by way of the Gulf of Mexico. The market closed strong, 5 1/2¢ cents to 5 3/4¢ net higher, with Dec. 1.86 1/2 to 1.87 1/2, and March 1.51 to 1.52 1/2. Heavy covering by shorts in corn took place. The close was unsettled 1/2¢ to 1 1/2¢ net higher, with Dec. 79 1/2¢ to 79 3/4¢.

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Dixon woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Dixon woman's experience.

Mrs. Leland Pontius, 609 S. Crawford St., says: "I fairly screamed with pains across my back and kidneys. In fact, I was as helpless as a child for nearly a month. I couldn't turn in bed and would get cold sweats. I thought the awful misery in my back would kill me. My kidneys were in terrible shape. I tried different remedies besides using plasters and liniments, but nothing gave relief. I was told that an operation was necessary, as I had passed gravel stones. My husband objected to the operation and got me a box of Doan's Kidney Pills. I could notice improvement right away and was finally able to get up and go about my housework." 60c at all dealers. MCREE-BLANK—

At 11:30 this morning at the home of the bride in Ashton, Miss Evelyn McCrea and George Blank were united in marriage.

Owing to the sudden death of a relative of the groom his relatives were unable to attend. The wedding was a quiet one, the ring ceremony being performed by Rev. Kline of Ashton. The house decorations which were very beautiful, were chrysanthemums in white and colors.

The bride couple were unattended and assumed their places as the bride's sister, Miss Ethel McCrea, played Lohengrin's Bridal Chorus. As the ring service was solemnized she softly played Humoresque.

The bride was charmingly attired in white tulle and kitten's ear crepe. The front of the gown was handsomely hand embroidered in white silk. Her flowers were bride's roses.

After the ceremony a five-course wedding breakfast was served, the tables being most attractive in chrysanthemums and roses. Miss Hattie Cook of Dixon catered.

Mr. and Mrs. Blank have left on a wedding trip to Texas, and on their return they will make their home in Chicago where the groom has a home beautifully furnished. The bride's traveling gown was of Pekin blue velvet, with a hat encrustment.

The bride is one of Ashton's fairest daughters and the groom is a prosperous business man of Chicago. Mr. and Mrs. Blank have the hearty good wishes of hosts of friends.

HAD SPLENDID MEETING—

The Missionary society of the Grace United Evangelical church held their annual all-day thank offering meeting yesterday at the home of Mrs. Bruce Zigler in Woosung.

There were fifty in attendance, including twelve guests. Two new members were added to the society yesterday. The trip was made to the hospitable Zigler home via auto and train. At noon a delicious scramble dinner was served after which the enthusiastic meeting was held.

The devotionals were led by Mrs. C. G. Unangst and Rev. Unangst gave the address, "The Path of Progress" which dealt with the christianizing of foreigners, and which was very interesting. Some special musical numbers included solos by Misses Minnie Zigler and Vivian Graves. They were accompanied by Mrs. O. E. Stroek.

A reading by Mrs. Deutsch was much enjoyed. Mrs. L. Sindlinger read the leaflet, "A Cent Apiece." The annual thank offering realized by the ladies was far beyond their expectations, being over \$100. As Miss Graves sang the offering was given in a most gracious and beautiful spirit.

AMERICAN LEGION AUXILIARY—

The Woman's Auxiliary of Dixon Post No. 12, American Legion, met in regular session in G. A. R. hall Nov. 9th.

The meeting was opened by the singing of America, after which the chaplain led the devotional service.

The usual business was transacted and Mrs. Rosbrook was chosen delegate to the convention in Chicago, Dec. 3.

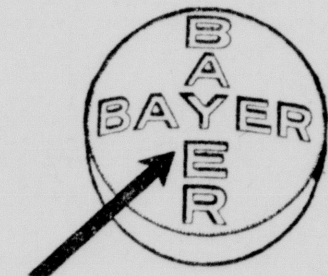

Plans were made to assist the members of the American Legion at the ball and social to be given Armistice Day.

The request for donations for the lunch to be served on that evening met with a hearty response by those present.

A very pleasing solo sung by Mrs. Edna Charles, accompanied by her daughter at the piano was much enjoyed.

Sister Mary's Kitchen

(Copyright, 1920, N. E. A.)

A piece of furniture can be cleaned in quite a wonderful manner by a cloth dampened with vinegar. The cloth should be either cheese-cloth or old linen and should be just damp. Rub the wood well with the damp cloth and polish with your own favorite brand of furniture polish.

The amount of dirt that the vinegar dampened cloth removes is surprising. It leaves the wood clean and in condition to take a wonderful polish.

Menu for Tomorrow.

BREAKFAST—Stewed prunes, broiled bacon, scrambled eggs, toast, coffee.

LUNCHEON—Pimiento rice, brown bread and butter, pickles, nut ginger bread, tea.

DINNER—Cream of tomato soup,

baked fish, creamed potatoes, shredded cabbage, mince pie, coffee.

My Own Recipes.

Mince pie should never be served after a heavy dinner. The fact that there are so many cases of illness after holidays is due to the eating of too much and too rich food. Fish is considered a "light" meat and requires a heavy dessert like mince pie. But to serve mince pie after a turkey dinner with all its fixings is tempting providence. But we'll probably all do it.

PIMIENTO RICE.

1 cup rice.
1 cup grated cheese.
1 can pimientos.
2 eggs.
2 tablespoons butter.
1 cup milk.
1 teaspoon salt.
1/2 teaspoon onion pepper.
Cook rice until nearly done. While hot beat in cheese, pimientos chopped fine, eggs well beaten, milk, butter, salt and pepper. Turn into a buttered baking dish, sprinkle lightly with buttered crumbs and bake half an hour in a slow oven.

NUT GINGER BREAD.

1/2 cup sugar.
1/2 cup lard.
1 cup molasses.
2 1/2 cups flour.
2 eggs.

If you are particular about the syrup you buy, and the price you pay for it—the new Maple Karo is your kind of syrup.

Perfectly delicious in rich maple tang—yet very moderate in price. So moderate that you can serve it every day, every meal. And all grocers everywhere have it.

Go to your grocer today. Get one can of Maple Karo. Try it just once. If you are not absolutely satisfied return it—and your grocer will give you back your money.

TRAIN YOUR EYES

What is the design of your bath
room wall paper? Quickly now, how
many steps to your attic and how
many to your cellar? Can you tell the
number of prongs on your table forks?

Most folks wander through life
quite blind. They see the unusual
things and the so-called interesting
things, but never at all the things that
surround them day after day.

But even the unusual most folks
see with only half their eyes. You and
your friend witness an automobile ac-
cident from exactly the same view-
point. At dinner table you try to re-
construct the scene for the rest of the
family. You will differ upon a dozen
points and some of them essential.
Neither of you really saw the ac-
cident. You only saw a little of it.

It all comes from a misunder-
standing of the facts of the case. You
say to yourself: "I was there! Of
course I saw it! I have eyes, haven't
I?" But it doesn't follow that because
you were here and have eyes that
you saw, anymore than it follows that
because you have a violin you can
play it.

You would expect to play a musical
instrument only when your brain and
your fingers had been trained to its
ways. Yet folks take it for granted
that the far more difficult accom-
plishment of seeing all and seeing ac-
curately is a heaven-given talent.

Train yourself at this business of
seeing. Play the instrument of your
eyesight as carefully as you would an
instrument for the delight of the
musical center of your brain.

Bernice, throwing down a book, "I
just ain't going to school another
day."
"Why," asked her mother, "what's
the matter?"
"It's no use wasting time," replied
the little miss. "I can't never learn
to spell. The teacher just keeps
changing the words every day."—De-

Afterthought

Did you hear about the defacement

Mr. Jones a few days after the funer-

But another friend of ours insists

"I can lick my weight in wild cats,"

THE TWINS HUNT CHIP

It was bad enough to have Chip
Chipmunk playing truant the Mon-
day after the picnic, for dear knows
he had lots of company, but when
Tuesday came, and no Chip came to
school, that was different.

Besides, who should appear at the 9
o'clock bell but Mr. Chirk Chipmunk,
Chip's father, saying that Chip hadn't
been home all night. When he learn-

ed that Chip hadn't been at school all
day Monday, either, and wasn't there

among the chestnut burrs on the
ground, for Chip never climbs a tree,
you know, although he likes what
grows on them. Also look under the
beechnut tree and in the buckwheat
field. Nancy, suppose you go with
him," he added, turning to the little
girl who was sharpening slate pencils
on a stone for the pupils to write
with.

"I can spare you today, I
guess. We'll skip the singing. You

yet in fact, he was worried to pieces.
"There's a full moon and the buck-
wheat's ripe," he said, but Chippy
never stays out late at night much on
account of Fleet Fox and Wispy
Weasel. He's kind of sneaky of Mr.
Owl, too, and Mr. Coon! Something
bad happened to Chip, Mr. Seribb
Scratch thought.

So Seribb Scratch called to Nick
and told him to go after Chip and
find him if he could. "Look in all
the acorn patches under the oak

Chipmunk."

Now, of course, having their Green
Magical Shoes, the twins got over the
places very quickly. But no Chip was
to be found, any more than the fire-
crackers you had last Fourth. Not
that Chip had blown up like a fire-
cracker, but after all, why not? If
you had felt his tummy, stuffed so
tight and hard with buckwheat as it
was, you'd be more surprised that
Chip had not blown up.

By PUBLIC HEALTH SERVICE.

The main functions of the skin are
three: to protect underlying tissues,
to excrete waste matter, and to regulate
bodily heat by checking or allowing
the evaporation of perspiration.

After perspiration has evaporated,
solid matter is left upon the skin, and
oil matter also is deposited on it by
the glands that keep the skin lubricat-

ed. Removing these and other mat-
terials at least once a day is desir-
able to improve the bodily tone and
sense of well-being.

Real cleanliness is impossible with-
out frequent use of warm water and
soap.

Cold baths are stimulating, though
not very efficacious for cleaning pur-
poses. They are valuable tonics if
properly used, but delicate or elderly
persons should use them only by a
physician's advice.

Chilly feelings or depression follow-
ing should be the signal for any per-
son to discontinue cold bathing or
swimming in cold water.

Warm baths are soothing in their
effects, and are appropriate to bed-
time, particularly for persons inclin-
ed to sleeplessness. Very hot baths,
especially if prolonged, may be harm-
ful, and should not be taken often.

Except in the case of a few dis-
eases, like typhus, there is no clear
connection between general bodily
cleanliness and disease. Frequent
bathing does not protect a person from
any particular disease, except in so
far as bathing necessarily includes
washing the hands.

If typhoid germs, for example, have
actually been swallowed, a clean bod-
ily exterior is of no avail in prevent-
ing typhoid fever or in diminishing its
severity. The same is true of other
diseases.

But it is impossible to overempha-
size the importance of clean hands,
for they are prime offenders in dis-
tributing fresh bodily secretions, and
germs, both innocent and harmful.

If onion extract is really a substi-
tute for gasoline, perhaps the car
would go farther on garlickier.

THE BOOK OF ANN.

WHAT ONE CLASS BUILDS, THE OTHER CLASS TEARS DOWN

The Lorimer grounds were aston-
ishingly well suited for the rally. The
crowd was admitted at the front en-
trance; it spread over the park and
around the lake, it invaded the sacred
blue garden, spooned under the per-
gola, and the early arrivals took the
choice places on the brink of the
green swarded bowl, from which to
get a perfect view of the ballot-bal-
let.

Back of the meadow, in a corner of
the park, stood Ann's house and mine.
They made the most convenient
dressing rooms for all who were to
appear in the pageant. The boy
scouts, who were helping us, used my
house and the girls strung their dain-
ty garments from end to end of Ann's
second floor.

After we were costumed, and flit-
ted and rouged and powdered, each of
us was carefully inspected by the di-
rector of the dance. Even the roses
wreaths on our cropped heads had to
be tilted to an exact angle, and we
girls were vastly relieved when at
last the director was ready to view us
"ensemble." And then, to our vast
astonishment, he called through his
megaphone:

"Take off your rings, young ladies!"

There were several engagement
rings in the lot, rings of this year's
harvest, and, of course the proud pos-
sessors were exceedingly loath to lose
a chance to display them.

But the director was obdurate.

"My mistake, I admit," he said,
"ought to have warned you to leave
the things at home. Ought not to
have taken it for granted that you'd
do so. Sorry. But off they'll have to
come, girls!"

"Don't argue the point at the last
minute," whispered Deborah Burns to
her sister of the superb new solitaire.
That settled the trouble, for what the
Burns girls do all the others do wil-
lingly, and so, in about two minutes
Ann had collected gems worth a small
fortune in her gold mesh bag.

With superb carelessness, splendid
pearls were dumped in the bag to rub
against hard sapphires and diamonds
and a lot of priceless birthday gems,
such as emeralds and rubies. The
value value of all the rings ran up
into tens of thousands of dollars, I
thought, as I observed how carefully
Ann was handling them.

There are two classes of persons
in this world, I thought as Ann shook
the bag of rings above her head and
ran upstairs with it. One class is con-
structive, the other destructive. There
are no neutrals. If one does not
build up, one tears down what others
build.

Ann is essentially destructive. Not
always intentionally, but often merely
because she is so lazy. Instead of
taking pains to hide those rings, in-
stead of informing Morrison about
them—and certainly the detective had
a right to know, since he was indir-
ectly responsible for them—instead of
doing anything sensible with them,
Ann simply dropped her gold bag into
the first handy place.

"Help yourself when you want them
girls," she said as she took her place
in the ballet. "They're in the top
drawer of my dresser."

I started to say that I hoped no one
but an owner would help himself to
the treasure. Suspense concerning
what might happen to them made me
awfully uneasy. For Mr. Best would-
n't be the only uninvited and unvel-

come guest on the grounds that night.
I wanted to get Bob on the phone
but it was too late for me to leave my
place in the row of dances. When I
considered the amount of sentiment
attached to some of those rings, I re-
alized how terrible it would be to
have to account for them to the girls.
Money values had little to do with the
love their owners had for them. There
were birthday, engagement and wed-
ding rings in the lot. And Willy Van
Eyck's sapphire was given to her by
her brother who went west in France.
She would never stop mourning if it
were to disappear.

ADDRESS GIVEN BY REV. WALTER BRINGS DEBATE

Interesting Meeting of
Preachers in Ster-
ling Monday.

Sterling, Nov. 9.—A largely attended and interesting meeting of the Rock River Ministerial Association was held in the parlors of the Congregational church in this city Monday. Twenty-two ministers were present at the morning session. The meeting was called to order by the president, Rev. Simpson, pastor of the Baptist church of Dixon. The nominating committee was composed of Rev. L. W. Walter of the Dixon Lutheran church, Rev. Judson Macintosh of the Sterling Baptist church and Rev. J. J. Johnson of the Brethren church at Dixon. The constitution was amended to include in the membership, actively engaged Secretaries of the Y. M. C. A.'s in this district. It was unanimously carried.

An interesting paper was read by Rev. Lloyd W. Walter, pastor of St. Paul's Lutheran church of Dixon, on "Original Sin." He read a statement or article of Augsburg Confession of Faith. Rev. J. J. Johnson read a unique paper, giving as his subject, "Crooked Sticks." In the discussion that followed, Rev. R. V. Callaway of the Sterling Christian church took issue with Rev. Walter's statements in the position on Original Sin, setting forth by his paper, maintaining that he did not believe the Bible taught the doctrine of the original sin. In this he was supported by Rev. J. L. Anderson of the Fourth St. M. E. church of Sterling. Rev. C. M. Irwin of the Sterling Presbyterian church supported Rev. Walter.

At noon the meeting was adjourned.

My appetite has returned and I can now eat as much of anything as I want without having one bit of trouble. The Illinois Agricultural Association, the State business organization of the County Farm Bureaus, is assisting in the membership campaign. Illinois has 17,000 pure bred Holsteins owned by 1200 breeders and there are several times as many grade Holstein breeders. The main idea of the Association is to improve and set a standard for Illinois Holsteins and to attract the attention of out of state cattle buyers.

Leaders of the Holstein America will speak at these meetings. Three men from the following list will be present at each of the meetings:

D. D. Aitkin, President, and R. C. Pollock, Extension Service, Holstein-Friesian Association of America, F. H. Everson of Lake Mills, Wis., Geo. A.

RED CROSS ROLL CALL IN LEE CO. OPENS TOMORROW

All Members Asked to
Renew Memberships
During Fortnight.

The fourth roll call of the American Red Cross will begin tomorrow and will end on Nov. 23. Lee County Chapter will endeavor to have many people retain their membership. The county chapter will work through its various branches throughout the county and the chairmen of the respective branches have been supplied with the necessary blanks and buttons and each is expected to do something for the good of the cause during this roll call. It will be necessary to hold a good membership in order to perpetuate the Lee county chapter.

In villages and towns where banks are located persons may go to these banks to renew their membership in the Red Cross. The Red Cross is doing a wonderful work and no one knows when good can be done in this county by the Red Cross. The late war has clearly demonstrated what the Red Cross can and will do in an emergency.

John H. Byers, chairman of the fourth roll call has asked the several chairmen throughout the county to co-operate with the Lee county chapter of which Col. W. B. Brinton is president and Louis Fletcher is secretary, in reporting a good membership during this roll call. Dixon people may renew their mem-

bership by going to any one of the city's banks. It is believed that the people of Dixon will do their share in keeping a large membership in the Lee county chapter.

The
"U.S." Walrus

Warm as an Arctic- washes off like a Boot

The "U.S." Walrus—worn by farmers everywhere

FOR years farmers have needed a high rubber overshoe—easy to put on and take off—warm and comfortable—one that could be easily cleaned of the dirt of the barnyard.

There's an overshoe like that ready for you this winter. With an all-rubber surface—snow-tight and water-tight—lined with soft, warm fleece—the U. S. Walrus is just the thing you've been looking for.

It slips right on over your leather shoes. You can work in sticky mud all day, but when you get home a pail of water or a rinse at the pump washes the U. S. Walrus as clean as when you started. No chance for dried mud to rot that smooth rubber surface!

At exactly the place where overshoes usually wear out first, the U. S. Walrus has been made *strongest*. Its sole consists of heavy layers of the finest rubber. All other points of strain are specially reinforced.

Ask your dealer to show you a pair of the U. S. Walrus. Examine for yourself their wonderful built-

to-wear construction. After you've worn a pair for a day or two, you'll realize why farmers everywhere are buying them.

Other types of "U. S." Footwear—

U. S. Boots have all the wear and comfort which the accumulated improvements of 74 years have given them.

U. S. Bootees lace on over the sock like a leather shoe. You can wear them all day long in mud and water—your feet will stay dry and comfortable.

The U. S. line of footwear has a type for every need—arctics, rubbers, "overs." Every one is backed by over half a century of experience. The rubber comes from our own plantations—the whole process of manufacture is supervised by experts.

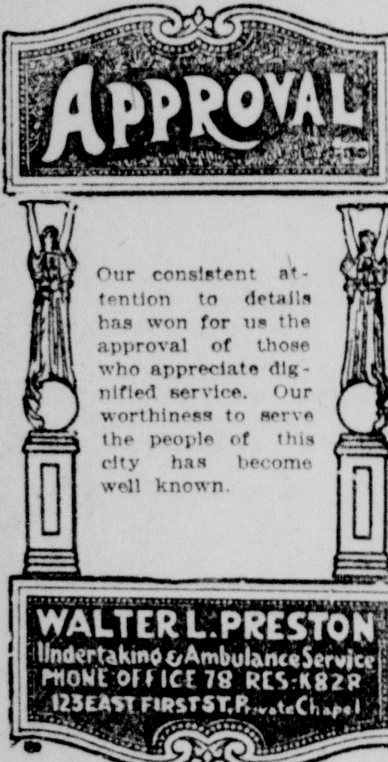

Always look for the U. S. Seal—it means solid wear and long service for your money.

Bodies of 9,000 Yanks Returned

Paris, Nov. 9.—Nearly nine thousand bodies of American soldiers who died or were killed in France during the war have been sent to the United States and turned over to their nearest relatives and 1,800 more await return. It is announced by the United States grave registration service. Nearly 60 per cent of the bodies of American officers and enlisted men buried in French soil will be returned to the United States, according to recent estimates. At frequent intervals parents and wives of dead soldiers have to come to France to remove the remains of their relatives, but upon seeing the cemeteries here and learning of the extreme care taken of them have decided upon France as the final resting place for the fallen.

The exhumation of bodies within the war zone began on Sept. 15, and since then work has been completed in 17 cemeteries.

HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of Limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.

11 Hens Idle; Now Lay 221 Eggs A Month

Almost Gave Up Raising Chickens. Then She Tried This Plan.

"When I accepted your offer and tried Don Sung, I was getting 1 or 2 eggs every other day. The next month, using Don Sung, my 11 hens laid 221 eggs. I almost quit raising chickens, but now I can."—Mrs. F. C. Young, Bellefonte, Pa.

You can easily start your hens laying and keep them laying, even in coldest winter. To prove it, accept our offer, as Mrs. Young did.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a profit besides, simply tell us and your money will be cheerfully refunded.

Don Sung (Chinese for egg-laying) is a scientific tonic and conditioner. It is easily given in the feed, improves the hen's health and makes her stronger and more active. It forces up the egg-laying organs, and gets the eggs, no matter how cold or wet the weather.

You can obtain Don Sung from your druggist or poultry remedy dealer, or send \$1.04 (includes war tax) for a package by mail. Bureau-Dugger Co., 124 Columbia Bldg., Indianapolis, Ind.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound."

It is very popular because nobody can discover it has been applied. It simply moistens your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Govt. Should Take Mines If Operators Can't Furnish Coal

Cleveland, Nov. 9.—Coal operators must either furnish enough coal at reasonable prices to meet the public's requirements or turn the mines over to the government, United States Senator William Calder of New York declared in an address on housing conditions before the Cleveland Builders' Exchange here last night.

Senator Calder who is chairman of the committee conducting hearings on reconstruction and production, contended that poor transportation was one of the chief obstacles which has retarded new construction. The inadequate transportation during a large part of last year, he attributed in part

to the irregularity of coal production.

Discussing the slack building conditions, which he said, were being experienced throughout the country, Senator Calder declared in favor of some kind of efficient legislation to give temporary relief and stimulate the construction of dwellings and apartment houses. He outlined plans which he said he will advocate for passage in congress.

Second Division U. S. A. Needs Men

Washington, Nov. 9.—Telegraphic orders were sent today to the army recruiting stations to recruit the Second division to its full strength immediately. It was explained at the war department that under the provisions of the national defense act one division of the army must be kept at full strength and that the second division had been selected by the general staff as the unit to be so maintained.

The division stationed at Camp Travis, Texas, is 6,000 short of its full strength. Heretofore recruits for the Second division have been drawn from the states of Texas and Oklahoma, but under the new order they will be

taken from any place in the country.

Major General James G. Harbord, who was General Pershing's first chief of staff in France, commands the division.

50-50 IN TENNESSEE

Memphis, Tenn., Nov. 9.—An official canvass in the eighth congressional district gives Lon A. Scott, Republican, a majority of 638 votes and the victory over his Democratic opponent, Gordon Browning. This fixes the political alignment of the Tennessee delegation in the next House of Representatives on the face of returns as five Republicans and five Democrats—a net Republican gain of three members.
